Rootella® X

PRODUCT APPLICATION

Applicable Crops

Rootella® X is suitable for seed treatment on corn, soybean and most row crops, using a wide range of equipment.

Mix 15 gr per hectare of Rootella® X in agitated seed treatment tank, immediately prior to coating process.

This bag treats approximately 17 hectares.

PRODUCT COMPOSITION

GUARANTEED ANALYSIS

Active Ingredient.....	30%
<i>Glomus intraradices</i>	133,600 propagules/gr
<i>Glomus mosseae</i>	33,400 propagules/gr
Total Other Inert Ingredient	
Diatomaceous Earth.....	70%

STORAGE

Protect from direct sunlight and store in a dark, dry and cool place between 5-25°C. Do not refrigerate or freeze.

Best if used by: _____

Produced in Israel by Groundwork BioAg Ltd.

Lot number: _____

MYCORRHIZAL FUNGI create symbiotic relationships with plants, enabling crops to uptake more nutrients (especially phosphorous), preventing stress and promoting healthy soil for increased production and resilience.

USAGE

IMPORTANT Avoid use of systemic fungicides, as these may kill mycorrhizal fungi. Non-systemic or foliar fungicides and fungicidal seed treatments are mostly compatible. Minimise use of starter phosphorus fertiliser to enhance mycorrhizae. See Rootella® Compatibility Tool on website for more information.

TERMS OF USE

Rootella® X is designed for use as microbial inoculants. Any reproduction, breeding, transformation or reverse engineering is prohibited. Product embodies proprietary information and may be used only for agricultural purposes. Limitation of Liability: The mycorrhizal inoculant is sensitive to environmental conditions and Roots, Shoots & Fruits, Ltd. is unable to make any warranties with respect to its performance. Roots, Shoots & Fruits, Ltd. is not responsible for the use or misuse of this product. Liability is limited to the amount paid for the product (excluding shipping costs). Use only as directed. If you have any difficulty in the use of the product, please contact us at rsf@rd2.co.nz.

WARNING

Do not inhale. Long term exposure to any respirable mineral dust could cause slight effects on the respiratory system. Keep bag tightly sealed after use.

IF INHALED

Move to dust-free fresh air. If respiratory distress develops, seek medical attention. See Safety Data Sheet for further details regarding safe use of this product.
